

meat for the machine

close the doors	dim the lights
take it off	turn the key
start me up	strip me down
gimme some juice	gimme some rope
tie me up	tie me down
stir me up	spin me around
shake it for me	turn the screws
start the countdown	stroke my weakness.

take me in your jaws	sink your teeth in
carry me around	get my hopes up
chew my head off	feed my sickness
pull my hair out	scrape my skin off
cut me open	let some air in
drag my guts out	turn the heat up
eat my heart out	have a party
blow my brains out	say you love me.

change your mind + leave me begging
naked helpless panting restless
hanging writhing pleading bleeding
gagging swelling twisting sweating
gasping grasping clutching drowning.

leave me wanting more
leave me alone
come back later
don't come back
it doesn't matter
I'll still be here
 waiting + hoping
 punch-drunk + crazy
one hand on my throat + the other on my dick
more meat for the machine.
